Tab. 1 - Wing metacarpal, humerus, radius, wing phalanx 1 and femur lengths and relative ratios in a sample of *Rhamphorhynchus muensteri* (sensu Bennett 1995) specimens belonging to the small size-class (skull ranging 31–65 mm in length; R, ‘longicandus’, cf. R. ‘longicandus’, R. ‘intermedius’, and cf. R. ‘intermedius’ of Wellnhofer (1975). Measurements are in millimetres. Data are taken from Wellnhofer (1975) and partly updated. Symbols: -, no measurement/ratio. Anatomical abbreviations: f, femur; h, humerus; mcIV, metacarpal IV; r, radius; wph1, wing phalanx 1. Institutional abbreviation: **AMNH**, American Museum of Natural History, New York (USA); **BSP**, Bayerische Staatssammlung für Paläontologie und Geologie, Munich (Germany); **CM**, Carnegie Museum of Natural History, Pittsburgh (USA); **ES**, E. Tab. 2 - Wing metacarpal, humerus, radius, wing phalanx 1 and femur lengths and relative ratios in a sample of *Rhamphorhynchus muensteri* (sensu Bennett 1995) specimens belonging to the medium size-class (skull ranging 78.7-125 mm in length; R. 'muensteri', R. cf 'muensteri', R. 'gemmingi', R. 'longiceps' CM11428 and *Rhamphorhynchus* sp. of Wellnhofer 1975). Measurements are in millimetres. Data are taken from Wellnhofer (1975) and partly updated. Symbols, institutional abbreviations and anatomical abbreviations are like in Tab. 1.

Tab. 4 - Wing metacarpal/humerus, wing metacarpal/radius, femur/radius and femur/wing phalanx ratio ranges within the sample of *Rhamphorhynchus muensteri* (sensu Bennett 1995) of Tabs. 1-3. The numbers in parentheses are the number of specimens. Abbreviations are like in Tab. 1 plus: **Mlarge**, mean of the large size-class ratios; **Mmedium**, mean of the medium size-class ratios; **Msmall**, mean of the small size-class ratios; **Ms**, mean of the whole *Rhamphorhynchus muensteri* sample.
