# How accessibility influences citation counts: The case of citations to the full text articles available from ResearchGate

## Supplementary information 1: Details of statistical analyses.

**Table 1**

Gold OA versus Non OA

<b>statistics</b>	<b>Gold OA</b>	<b>Non OA</b>
mean for citation	10.61	6.27
Standard deviation for citation	25.63	10.74

**Table 2**

Green OA versus Non OA

<b>statistics</b>	<b>Green OA</b>	<b>Non OA</b>
mean for citation	7.84	6.27
Standard deviation for citation	11.35	10.74

**Table 3**

Post print versus publisher's version

<b>statistics</b>	<b>Post print</b>	<b>Publisher version</b>
mean for citation	3.8	8.1
Standard deviation for citation	4.1	11.6

**Table 4**

Impact factor (IF) of Green OA versus Impact factor of Non OA

<b>statistics</b>	<b>Green OA</b>	<b>Non OA</b>
mean for IF	3.21	3.71
Standard deviation for IF	2.64	3.77

**Table 5**

Impact factor (IF) of Green OA versus Impact factor of Non OA for UT and PU

<b>University</b>	<b>Statistics</b>	<b>Green OA</b>	<b>Non OA</b>
Peking University	mean for IF	4.89	4.07
	Standard deviation for IF	3.93	4.64
University of Tehran	mean for IF	2.31	2.05
	Standard deviation for IF	1.25	1.30

**Table 6**

Number of authors for Green OA versus Number of authors for Non OA

<b>statistics</b>	<b>Green OA</b>	<b>Non OA</b>
mean for number of authors	5.40	4.44
Standard deviation for number of authors	6.82	2.54
